“ *Don you were my texting buddy for a long time. There are so many times these past several days I wanted to send you a text. I really miss you and that part of my every day life. I am so happy you were in my life for those 69 years of your life. You are greatly missed, I know you are in a better place now, you are with Patty. I love you and I really miss you. I know you can't feel my love, hug and Prayer but they are with you always.*

*Love, Hugs and Prayers,  
Jean*
