“ Gail was the best friend that anyone could ask for Always there to listen to you about yr day your life n the amazing love that she had for you. And her talents never ends. The artist, the painter, the wood worker, the one who could make anything from cloth material she could do it all. When she saw something that liked she would learn how to make it. She would share the pictures of all her new projects with me as I loved everything she did. Gail loved her family with all her heart and talked often of their accomplishments. They were her joy. We would talk for hours about all her life adventures and they were so many, mostly funny ones and the famous people she had met and she talked about the time growing up on her parents farm. And I must not forget she was the animals best friend as well. She loved them all no matter what they were. She was always there when I needed help with my pets need. She knew just what to do n calm me down. Gail would laugh n tell me it would be ok n it was The world has lost an amazing woman and my friend. My life will always b changed for her being in my life my heart is breaking May her family find peace in the life she has lived. Rest in peace my friend you will be missed
